Bobcat Contracting recognized for outstanding safety two years running

HILLSBORO, TEXAS, Nov. 17, 2014: Bobcat Contracting is a repeat awardee for the Texas Mutual Insurance Safety Trophy for an outstanding safety record. This is the second time the company has been recognized for excellence in workers' safety, one of only 200 recipients out of Texas Mutual's 60,000 policy holders this year.

The Texas Mutual safety trophies are awarded to companies who have "provided resources necessary to protect employees from workplace hazards," according to Jennifer Rosenboom, Safety Services Consultant for Texas Mutual, who traveled to the company headquarters in Hillsboro, Texas, to present the safety trophy to Bobcat Contracting owner and president R. Marc Young.

Texas Mutual selected Bobcat Contracting to receive a trophy "because employees are exposed to workplace hazards, and Bobcat Contracting has gone above and beyond to ensure workers' safety," according to Rosenboom.

"Simply put, it is clear that safety is a core value in your organization," Rosenboom said. "We work hard to help you prevent workplace accidents, and we are proud to have policyholder owners who share our vision."

Young is honored to be recognized with this award.

"To receive this award again is proof that safety really is our top priority day in and day out, every day of the year."

Companies receive safety trophies because their

loss experience reflects a commitment to safety, according to Texas Mutual.

"This award is a reflection on our entire company," Young said. "It is the hard work of each employee, from top to bottom, that creates a safe work place."

Bobcat Contracting is the single source in energy services in Texas and around the country. The company strives to meet the needs of a diverse group of energy companies by offering services in pipeline and fabrication, mechanical and civil, and electrical and instrumentation.

Bobcat Contracting utilizes the best products and materials available, real-time applications, and paperless office functions.
